AWARD FOR A LASTING AND OUTSTANDING CONTRIBUTION TO MATERIALS SCIENCE AND ENGINEERING FOR 2025

The Executive Board of the MRS-Serbia is proud to announce the competition for the Award for a Lasting and Outstanding Contribution to Materials Science and Engineering for 2025.

The Award for a Lasting and Outstanding Contribution to Materials Science and Engineering is awarded to the most distinguished scientists for their overall scientific achievements which have contributed significantly to the advancement of this areas of science, the enhancement of university teaching, education of young scientists and upholding the reputation of the Materials Research Society of Serbia. Eligible candidates for the award include scientists from around the world, involved in research in the area of materials and who have made a significant contribution to the interests and goals of the Materials Research Society of Serbia. The award is given to an individual.

The right to nominate candidates for the award is held by the members of the Materials Research Society of Serbia (eligible nominations shall be supported by at least five members) and the Executive Board of the MRS - Serbia.

Nominations shall be explained in detail and contain information about the scientific (list of scientific papers) and professional (list of national and international patents, specifically stating those that have been implemented and their financial effects) merits of the nominee, as well as the number of their technological solutions (measured by their economic effects).

IMPORTANT: The award nominations shall be submitted to the Secretariat of the Materials Research Society of Serbia: yucomat@mrs-serbia.org.rs. The competition shall be open for entries 45 days since the announcement (published on 31 December 2024).
